X-10: on/off control for lights, appliances, fan, buzzer, door opener, drapery control, more. IR: infrared control of TV/VCR, stereos, IR phone or other IR controlled device

A/V: audio/visual (ie. stereo/TV) () Optional

serial input: can be controlled by AAC or computer with serial port through adaptations to that device (ie. switches).

Bed control can be accomplished with any X-10 system by X-10 System Electric Bed Operator #304, Jantek Home Controls, Inc., 416-620-5255, \$430.

Door Openers can usually be controlled with an X-10 module. If the EADL is not portable, you cannot open the door from outside. IR Door openers are available, as well.

Any EADL transmitting IR may be programmable to send to an IR telephone. Check with the manufacturer.
