

# Leadership Institute Now I "See" It!

Join us on March 22, 2007 where Dan Herlihy, Connective Technology Solutions, Inc. will present *Now I "See" It!* Do your students really "see" the focus of your lessons? Learn how to enhance access to the curriculum within a truly multi-sensory environment. Target the learning needs of students with auditory, visual, kinesthetic challenges by creating access and added supports to curriculum materials using Mayer-Johnson animated PCS symbols, sign language videos, Vcom3D's ASL animations, add captioning to Quick Time movies, tactile support for the IntelliKeys keyboard, embedded auditory prompts, voice recognition and more. A variety of software and hardware will allow you to set the stage for active learning and student participation enabling all your students to exclaim "Now I see it!" **Hands-on**
